

REMARKS

The Examiner objected to claims 43-48 and 55-57; and rejected claim 45 on the formal matter of dependency under 35 USC 112.

The claims objected to and the claim rejected under 35 USC 112 have been amended as suggested by the Examiner to make them allowable. The other rejected claims have been cancelled.

Hence this amendment merely complies with requirements of form and does not touch the merits of the application.

Hence this application is condition for allowance and such action is respectfully requested.

Respectfully submitted;

Frank A. Spear
